

2025 Summer Newsletter

Proud to celebrate 28 years of servicing the South Shore Community!

Summer Hours

As of, Monday, July 7 we will be moving to our summer hours open **Mon-Fri 7AM–4:30PM & Sat 7AM-1PM.**

Exciting Team Updates at Smith

Let's warmly welcome our newest team member, **Joel Horton**, who will be joining us as a *Mechanic*. Joel is a fantastic addition, and we are thrilled to have him on board.

Additionally, we are pleased to announce that our very own **Jack Breare** will be transitioning into the role of *Service Manager*, overseeing the Parts and Service Department here at DH Smith and Sons.

Service & Repair for All Landscape Power Equipment

We specialize in servicing and repairing riding mowers, tractors, commercial trucks, and trailers. From chainsaws and string trimmers to dump trucks, tractors and equipment trailers, our two full-time, dedicated mechanics are industry experts. At Smith and Sons, we take pride in our quick turnaround time. Call today to schedule your next tune up, service, or repair.

Mulch Mania Summer Sale!

Enjoy 10% off Mulch now through July 31! Take advantage of this discount for pick-up or delivery! All our mulch is made right here in our yard at Smith and Sons. We take great pride in making our products and while we source our pine bark from Maine all our grinding, seasoning, and color enhancing is done on site.

Green Waste Recycling

Our complete wood waste recycling facility is **open to contractors and homeowners**. We accept brush, logs, chunk wood, stumps, grass, leaves, and woodchips. We do not accept any demolition debris, concrete, pallets, or trash – only natural wood waste. We process everything that comes in by grinding, seasoning, and color enhancing. **Nothing is wasted;** stumps are sheared, cleaned, and ground. Remaining wood chips and grindings are made into our premium mulch products. Call or stop by for current disposal pricing.

Milwaukee Tools

We are super excited about our partnership with Milwaukee and stock our store with a full line of battery compatible tools and outdoor power equipment. From maintenance to tree

care and construction, Milwaukee tools are an innovation for the outdoor trades and a world leader in battery powered productivity. Unsure of how powerful these tools are? No worries! We have a wide selection of demo equipment for you to try out before making your purchase.

Floor Model Mower & Snow Blower Sale

Prices slashed on select floor model Zero-Turn and Stander Mowers and **ALL** Snow Blowers. **Up to 30% off MSRP!**

Kioti

We are very excited about our expansion of our Kioti offerings and our venture into the commercial market by bringing in the **Kioti** line of Compact Loaders including the **SSL Skid Steer Loader SL750 and CTL Track Loader TL750**. These skid steers have been tried and tested by our team, and we cannot say enough of how excited we are to get them out on the market to our customers. We are also pleased to have a yard of stocked tractor implements ranging from grapples, pallet forks, and mowers to landscaping rakes, snow pushers and brush hogs. Check out our website <https://dhsmithandsons.com/> for current Kioti Specials and our YouTube Channel to watch videos of why we love selling these tractors.

BWise and Felling Trailers

BWise and **Felling** design and build a diverse range of trailer models, each meticulously crafted for a specific purpose. We are ecstatic to announce our partnership with these two brands and are excited to assist our customers with finding the perfect trailer that aligns with their exact requirements, capabilities and needs. Check out our newly updated Trailer page <https://dhsmithandsons.com/trailers/> that can be found under Products/Outdoor Power Equipment on our website.

Seed & Fertilizer

We are currently stocked with a full line of seed, fertilizer, control, and other specialty products and preventatives to help you maintain a healthy lawn. Our **2025 Fertilization Program** will walk you through the steps necessary to maintain a beautiful landscape.

Complete Lawn Rejuvenation

This summer's relentless heat has been challenging and will undoubtedly impact many of our lawns. But there's no need to fret! Once the cooler temperatures arrive, Smith and Sons will be ready to help restore your lawn to its former glory. Fall is an ideal season for aerating and top dressing your lawn, as the soil remains warm from summer, promoting germination, while the crisp fall air encourages new growth. Smith & Sons provides a

comprehensive package for aeration and top dressing, with the convenient option of home delivery! Stay tuned for more information on how to schedule this complete lawn rejuvenation in the upcoming weeks.

Hardscape

We are thrilled to collaborate with Ideal Paver/Walls and Elements, Instone, and Fieldstone Veneer to provide a comprehensive range of hardscape products alongside our classic pavers and cobbles. In addition to pavers, cobbles, fieldstone, and granite steps and treads, keep an eye out for more hardscape offerings that will be arriving in our yard in the coming weeks. With the new addition of our flatbed and moffett, we are pleased to offer delivery to your home or jobsite.

Tukahoe Turf Sod

Smith and Sons is happy to be your local Tuckahoe Turf Sod Dealer specializing in distribution of high-quality New England grown Kentucky Blue Grass and Fescue blends. All sod is cut fresh to order and can be delivered directly to your home or jobsite. Check out our newly developed Sod page <https://dhsmithandsons.com/sod/> on our website for more details.

Firewood

Now is the time to begin stockpiling your firewood for the winter months. The heat of the summer will help to reduce any moisture in the wood, ensuring a proper burn come winter. An ideal source of fuel with the rising energy prices, our seasoned wood is sold by the quarter, half or full cord. Stop by for pick-up or call for delivery.

New Website Updates

Thanks to the ongoing efforts of our amazing staff, web design and marketing team, we have made huge improvements to our **Smith and Sons Website** and hope the new content will be very informational to our current and new customers.

Summer/Fall Rental Fleet

Smith and Sons is South Shore's one-stop shop for all Landscape Equipment Rentals. Our assortment of newly maintained and serviced rental equipment such as **Compost Spreaders, Core Aerators, Slice Seeders, Compactors, Tractors, and Utility Track Loaders** is available to rent on a daily or weekly basis. We have also just recently added a **BWise Trailer** into the rental fleet, however, we will continue to offer our delivery and pick up option which adds to the feasibility of not having to rent a truck or trailer to transport.

Check out our Smith Rents page <https://dhsmithandsons.com/smith-rents/> for more information on our rental fleet and prices.
